

VoiceStation 100^a Features and Benefits

Features	Description	Benefits
Full-Duplex Audio Performance featuring Polycom's Acoustic Clarity Technology™	Facilitates simultaneous 2-way communication with maximum call clarity both at the near and far-end. Conduct remote meetings that are as natural as being there; talk "hands-free" while working.	Remote Meetings Anytime, Anywhere. Hear and be Heard at the Same Time. <ul style="list-style-type: none"> Saves time. Increases productivity. Convenience.
Dynamically Adjusts to Any Small Room's Acoustic Environment	Self-adjusting echo cancellation software actually 'learns' the acoustics of any small room to minimize reverberation while optimizing audio quality.	Works in Any Small Room. <ul style="list-style-type: none"> Saves time - no system adjustments required. Increases productivity - in any small room. Convenience – unlike some audioconferencing systems, VoiceStation 100 does not require an annoying burst of white noise to 'learn' the acoustics of a room.
3 Microphones w/ 360° Room Coverage	Complete microphone coverage for all meeting participants seated around the system.	Everyone Can Be Heard Clearly — No Need to Repeat Yourself. <ul style="list-style-type: none"> Increases productivity. Saves time.
High-Quality Speaker	Robust, high-quality speaker with maximum peak volume of 85dB at 0.5 meters — significantly louder than an average speaker phone.	Everyone Can Hear Clearly. <ul style="list-style-type: none"> Increases productivity. Saves time.
Easy to Install / Easy to Use	Installs easily in less than 60 seconds to any analog line; no-nonsense features and functions are easy to identify and use.	Set Up Fast / Begin Using Immediately. <ul style="list-style-type: none"> Saves time. Increases productivity. Convenience.
Redial	Pressing the Redial key automatically recalls and dials the last phone number called.	<ul style="list-style-type: none"> Saves time. Convenience.
Flash	Pressing the Flash key allows you to access special features of your phone system, such as conference bridging services (ask your telephone system administrator for details).	Set Up Multi-point Conference Calls Yourself. <ul style="list-style-type: none"> Convenience. Saves money.
Hold	Pressing the Hold key disables microphones and speakers and places caller in a 'holding' pattern. Another phone using the same line in parallel can then retrieve the call.	Extended Call Management. <ul style="list-style-type: none"> Convenience.
Mute	Pressing the Mute key deactivates the microphones while allowing you to still hear the speaker.	Make Comments in Private without Interrupting the Meeting. <ul style="list-style-type: none"> Convenience.
Data Port (110V versions only)	Connect a laptop computer, Fax machine, or another analog phone without unplugging VoiceStation from the telephone jack.	Multiple Devices can Access one Telephone Jack. <ul style="list-style-type: none"> Convenience.
RCA Output Jack	Capture meeting audio output on a tape recorder, stream a meeting over the Web or archive to disk.	Extended Meeting Coverage and Archive Capability. <ul style="list-style-type: none"> Convenience.
